2/17/65

Dear Gerry,

With all the time the NEVER AGAIN! proofs are taking, about which more when I've time, and today's heavy mail, all I can say about your Posner project is that we both enjoyed your letters and will marvel at any response

I've made a separate file of this in my Posner file.

If you ever put down what you think your students got from their work I'd like to know and to have that on file.

Or anything they said about that experience.

Thanks and our best,

Harold
